MISSION STATEMENT 1

PUBLIC SAFETY DIRECTOR’S MESSAGE 2

POLICE DIVISION 3

FIRE DIVISION 7

ADMINISTRATIVE DIVISION & EMERGENCY MANAGEMENT 9

VOLUNTEER SECTION 8

PERSONNEL CHANGES 11

The mission of the Lino Lakes Public Safety Department is to collaborate with the community to provide:

- a healthy and safe community;
- a focus on prevention;
- a commitment to life safety;
- aggressive pursuit of criminals;
- respectful communication;
- encouragement for volunteerism.

John Swenson
Public Safety Director

Public Safety Director Message:

During 2020 the Public Safety Department weathered several changes to our operations, as did our community, in response to the COVID-19 pandemic, the civil unrest in the Twin Cities metropolitan area which followed the death of George Floyd, and the homicide in our community. This year was trying and stressful for the Public Safety Department and for our community as a whole.

The manner in which we responded to calls for service from our community changed significantly as a result of COVID-19. Our police and fire responders were directed to limit all close interaction with community members and other staff, which resulted in some remote and modified responses to calls for service, as well as staffing deployment changes. In an effort to limit the risk of exposure and ensure we maintained sufficient staff to respond to calls for service, we moved our patrol staff to 12-hour shifts, had office staff work from home, split our investigators into two teams rotating those teams into the office, and all in-person training for police and fire personnel was cancelled. These changes took effect in April and continued through June, when we were able to return to our traditional staffing deployment.

The tragic death of George Floyd in Minneapolis Police custody on May 25, 2020 sparked protests which led to civil unrest in the Twin Cities Metropolitan area. Our staff took steps to protect our community from any looting that took place in other communities and provided support and staffing to other Anoka County communities.

In August of 2020 our community experienced a homicide, which was the first homicide in Lino Lakes since 2008. Our investigative staff, in collaboration with the Anoka County Criminal Investigative Division, worked very hard to identify and arrest two individuals in connection with this homicide. Both individuals have been charged with Second Degree Murder and are awaiting their trial.

Regrettably our team has not been able to engage with our community in 2020 in the same manner as we have grown accustomed to in years past. We did provide forty four public safety drive-bys in an effort to assist our community in dealing with some of the stressors stemming from the COVID-19 lockdown and to reassure our community that we continue to serve during these stressful times.

I am very proud of how our staff and community have responded to the challenges of 2020. It is our shared perseverance that will enable us to overcome the pandemic and any other challenges that come our way.

Police Division

Throughout 2020, the Police Division of the LLPSD made significant changes to the way we responded to and handled calls for service, due to the COVID-19 pandemic. As the pandemic hit, before responding to calls, Officers closely assessed the needs of those calls to determine whether or not in-person contact was necessary, or if the call should be handled by phone in an effort to decrease the number of close-interactions with individuals throughout the community. Officers increased protective measures for themselves and for the people they met by wearing protective masks and increased distance from those they interacted with. Although not the police department's preferred style of interaction, more than ever, officers handled calls by phone rather than in-person and on many occasions, found themselves asking people to talk with them outside of homes and businesses rather than inside, to lessen the likelihood of transmitting/contracting the COVID virus.

Although not the police department's preferred style of interaction, more than ever, officers handled calls by phone rather than in-person and on many occasions, found themselves asking people to talk with them outside of homes and businesses rather than inside, to lessen the likelihood of transmitting/contracting the COVID virus.

Probably the greatest disappointment among the staff of the Lino Lakes Police Department was the complete cessation of all community programs, community events, police department initiatives, and the day-to-day interactions. Our officers had grown accustomed to providing service through face-to-face interactions over the years. Once the pandemic hit, the police department team was no longer able to establish in-person connections with Lino Lakes residents and the members of our business community. COVID did not do any of us any favors in this respect. Our agency needed to put almost all educational programs on hold throughout 2020, but we really look forward to turning that all back on in 2021.

Once the Governor's Executive Orders prohibited gatherings, both the police and fire division partook in an initiative to show support to the Lino Lakes Community, at a distance, with special event drive-by's. The police division participated in 44 drive-by's during this time. Events ranged from birthdays, graduations, neighborhood support, a drive-by parade at our assisted living facilities, and even one small backyard wedding and a gender reveal. A very non-traditional approach to police/community interactions, but it was one of the few things we could do during a challenging time to remind our residents how much we appreciated them.

Despite the pandemic, officers maintained traditional patrol levels and were still able to handle traffic-related problems throughout the city, without much change. Although the officers didn't stop their proactive efforts, they did modify the way they interacted with drivers by not taking items from individuals, rather, they would write down necessary information, such as driver's license numbers and insurance information, then return to their squad cars with their written notes rather than exchanging the items with individuals. An interesting note about the new cautious approach to traffic stops; although the overwhelming majority of people with whom the officers interacted were accepting of the precautionary practices, some were offended that the officers wore masks or wouldn't take their items. It made them feel as though they were a viral threat to the officer. On the other hand, others expressed frustration that the officers stopped them at all, despite the violation(s), and felt the officers posed a viral threat to them and shouldn't have stopped them. Additionally, a common theme

among criminals was noted. Several people, upon arrest, claimed to have COVID, likely hoping the officer would turn the other way and let them go. It was an interesting year.

The department's canine, Argos, continued his service with his handler, Officer Kristen Mabraten. Unfortunately, the COVID-19 pandemic negatively impacted this team's ability to publicly showcase their abilities throughout Lino Lakes; among the many things our agency has taken great pride in throughout the years.

Throughout 2020, Argos was deployed a total of 19 times to assist Officers of the Lino Lakes Police Department and other surrounding agencies on a variety of calls including suspect tracks, article searches, and drug sniffs. On November 9th, Argos was requested to assist a neighboring agency with a track after a suspect had fled from a stolen vehicle. Upon arrival, Argos was deployed to the area the suspect was last seen. He quickly picked up a track for the suspect and pulled Officer Mabraten into a residential area. He tracked into a backyard and, while searching the yard, the suspect announced his surrender and put his hands up. He gave up peacefully and was taken into custody without further incident.

In another notable incident, Argos was deployed to sniff a vehicle suspected of transporting drugs. During the sniff, Argos displayed a behavior change which his handler knew to mean he had detected the residual odor of drugs indicating they had recently been present in the vehicle but were removed prior to the sniff. The driver was subsequently taken into custody for charges unrelated to the sniff and, while the suspect was being searched, Officer Mabraten noticed a large bulge in the suspect's sock. She alerted the arresting officer who checked the suspect's sock, finding 15 grams of methamphetamine. This find reaffirmed Argos' actions.

On August 30th, Argos attended the Region 12 Patrol Dog 1 Certification. He performed in the suspect search, article search, obedience, apprehension, and apprehension with gunfire events and received his certification. On October 10th, Argos attended the Region 18 Narcotics Certification during which he performed both room and vehicle searches. Argos received a near perfect score of 199.5 out of a possible 200 points and received his certification. Additionally, Argos and Officer Mabraten received an award from the United States Police Canine Association for their contribution in the arrest and prosecution of a male found in possession of approximately 447 grams of methamphetamine. This arrest also resulted in the forfeiture of nearly \$33,000.

Below are 2020 Group A and Group B Crime and Arrest Data:

Below is a table which shows the total number of case numbers generated by Lino Lakes police staff for all calls for service and incidents at or above a misdemeanor level:

CASE NUMBERS GENERATED					
YEAR	Q1	Q2	Q3	Q4	TOTAL
2020	3,348	3,476	3,422	2,968	13,214
2019	3,028	3,752	3,776	3,408	13,964
2018	3,856	3,823	3,568	3,240	14,487

Investigations

In 2020 the Investigations Division of the Lino Lakes Public Safety Department investigated 299 criminal cases, with 116 of these investigations resulting in the case being submitted to the prosecuting attorney for criminal charging. Arrests, citations, referrals to other law enforcement agencies, and similar case dispositions produced a total clearance rate of 60%. Additionally, 45 search warrants were executed as part of the investigative process, and 76 cases from child and adult protection organizations were reviewed and investigated.

A few of the significant investigations conducted in 2020 include:

- Investigators responded to a bank where a robbery had just occurred. A suspect description was developed, and with the assistance of neighboring law enforcement agencies, as well as banking tracking technology, the two individuals responsible were arrested within an hour of the incident. All funds lost by the bank during the robbery were recovered, and the suspects have since been indicted on federal charges of bank robbery.
- The Lino Lakes community unfortunately was impacted by our first homicide in many years. Countless hours were committed to the case and Lino Lakes PSD investigators, along with Anoka County Sheriff's Office detectives, made arrests of two individuals that are currently awaiting trial. Many search warrants were executed resulting in the recovery of crucial evidence.
- An investigation was initiated after recording equipment was located in a public restroom. Investigators collected evidence, and determined who had access to the restroom at the time the device was likely placed. A suspect was identified and a confession was obtained during an interview. The case was sent to the prosecuting attorney for charges to be filed.

- After responding to a serious motor vehicle crash, an investigator was assigned to follow up with interviewing those involved, as well as obtaining medical documentation of their injuries. One victim's condition deteriorated, sadly leading to their death. With the assistance of the Minnesota State Patrol Crash Reconstruction Unit, as well as evidence obtained via multiple interviews and search warrants, the driver causing the crash was charged with Criminal Vehicular Homicide.
- While reviewing several trailer theft incidents in the city, investigators identified a suspect, and obtained a search warrant to allow for a tracking device to be applied to the suspect's vehicle. Within days of the tracker being installed, this vehicle was shown to be in the area of another trailer theft. Additional search warrants were executed, which led to the recovery of two stolen trailers as well as the arrest and criminal charging of the responsible individual.

In addition to the cases assigned, the Investigations Division also processed several crime scenes for DNA evidence, instructed department Use of Force and Firearms trainings, processed all administrative forfeiture cases, coordinated the Guns-n-Hoses hockey event, completed 148 background investigations for city permits or employment processes, as well as 159 discovery requests. The Investigations Unit also utilized their police/fire cross training in their response to 40 medical and fire emergencies.

Fire Division

With the arrival of COVID-19 in early 2020 and with many of our resident's working from home, our calls for service changed slightly with a slight reduction over all. Our agency experienced a decrease in our 2020 (371) fire call load in comparison to 2019 (379). The type of calls that made up the majority of the 40 calls for service (CFS) were related to vehicle crashes (NFPA 300). This was also a reduction from 2019 (52). Our Police/Firefighters responded to all 371 fire CFS and our Paid On-Call Firefighters responded to 248 fire CFS in 2020. The fire call load decreased by 8 CFS for our Police/Firefighters and increased by 12 CFS for our POC Firefighters in comparison to 2019.

Through our public safety response model, we have developed a robust weekday fire response through our utilization of police/firefighters. In 2020, there were 176 fire CFS that occurred on weekdays between the hours of 0600 and 1800 hours. In late 2020 we implemented a Duty Officer Program. The Duty Officer responded to 21 Calls for Service. These calls are usually non-emergent type calls.

Our staff responded to 15 calls for service that involved fires. These calls resulted in \$241,450 in property damage/loss. Through these fire suppression efforts, there was \$13,682,450 worth of property saved in 2020.

During 2020 the final phase of the Fire Station 1 remodel was completed with the kitchen upgrade.

FIRE DIVISION

Administrative Division and Emergency Management

The Public Safety Department continued to leverage staff, by partnering with Century College through a multi-jurisdictional continuing education program, as well as utilizing online resources to ensure that all public safety personnel receive the highest quality training and remain up to date on all state and federal mandated training requirements.

Our in-house certified instructors provide training in areas such as firearms, use of force, CPR, emergency vehicle operations, water rescue operations, and fire scene security. During 2020, continuing education fire training was conducted twice a month through Fire Inc. In-house fire training was conducted once per month.

Staff continued to utilize online resources for components of the hazardous material training requirement, employee right to know training, OSHA requirements, as well as both police and fire legal updates. Staff was also provided monthly online training updates on the department's policy and procedure manual.

Emergency Management Staff worked closely with Anoka County Public Health during our response to the COVID-19 pandemic response. At times, public safety staff met with other emergency management partners twice daily to best responds to changing circumstances. Emergency Management Staff secured PPE and issued virus mitigation strategies throughout 2020.

This year, our records unit:

- Handled 8,042 police reports
- Filed 1,574 citations
- Processed 457 permit to purchase handgun applications
- Issued 123 dog licenses
- Completed over 300 local records checks
- Processed over 650 criminal histories
- Processed 56 burn permits

Volunteer Section

RESERVES - In 2020, the Lino Lakes Public Safety Department Reserve Unit was comprised of 9 volunteer reserve officers. These reserve officers supported the functions of the Public Safety Department in multiple areas. The police reserves participated in community events, provided traffic and pedestrian safety, provided uniformed patrol in marked patrol cars, and conducted home and business checks. They also assisted full time officers with community education, training events, prisoner transports and select calls for service. Their involvement and participation with the department are all in an effort to help fulfill the mission of the department by providing a healthy and safe community, focusing on prevention, promoting life safety, aggressively pursuing criminals, encouraging volunteerism and continuing to enhance and strengthen the agency's community oriented policing philosophy.

Activity	2020 Hours
Meetings	141
Patrol	707
Ride Along	120
Special Events	199.25
Training	37
Office Assistance	14
Field Training	43.75
TOTAL	1262

In 2020, the Public Safety Department Reserve Officers were trained by LLPD staff and the reserve unit command staff in vehicle operations, use of force, officer safety, Taser, first aid, traffic direction, search and rescue, patrol tactics, public relations, legal issues, radio operations, occupational hazards, cultural diversity, report writing and officer assists.

Reserve officers handled 10 transports, assisted officers on 79 calls and handled 65 ordinance/public assist calls for service and provided over 700 hours of neighborhood patrol. This assistance enabled sworn officers to remain in Lino Lakes, available to patrol the city and to respond to calls for service. Throughout 2020, the Public Safety Department Reserve Officers donated over 1262 hours of service to our community.

CHAPLIN PROGRAM - The chaplain program was formed in 2003 when it was realized that a resource such as this would be beneficial in helping Lino Lakes citizens and police staff in times of need. Initially police chaplains responded to only law enforcement needs but now serve all facets of police and fire services under the Lino Lakes Public Safety model. With this change the chaplain(s) are available to all police/fire staff and respond to any public safety related incident where they are needed. The types of incidents a chaplain may respond to include death notifications, scenes where a death has occurred or when fire has damaged or destroyed property. When these sensitive situations occur, chaplains are called upon to assist and they provide an invaluable service by helping with crisis management and deliver information on resources available to those in need. Chaplains are on call 24-hours a day, every day throughout the year.

Chaplain Pederson

Beyond assisting public safety staff with the aforementioned incidents, chaplains also keep in contact with our police officers and firefighters to ensure they are not overwhelmed by the stressors prevalent in public safety. Chaplains are able to connect with staff by participating in a ride-along with police officers or dropping by the police station or fire department where they check in and visit with staff.

Our current chaplain, Wes Pederson, is with Eagle Brook Church and joined our program in 2016. Chaplain Pederson completed his MESCA (basic chaplain training) in 2017.

CERT - The Lino Lakes Community Emergency Response Team (CERT) was founded in April 2008 with twenty-five citizens who were trained to help their community in times of need. There have been three additional training classes offered since 2008 and the program currently has thirty-nine members. CERT was initially developed and implemented by the Los Angeles Fire Department in 1985 in order to have trained citizens respond during disaster situations.

In order to become a CERT member a person must successfully complete a training program that covers topics such as: disaster preparedness, fire safety, disaster medical operations, light search and rescue, CERT organization, disaster psychology, and terrorism & CERT. During the last week of training the members participate in a final scenario where they use their newly learned skills to rescue role-players during a simulated disaster situation.

CERT members have been activated in order to assist police and fire personnel to search for evidence and missing persons as well as participating in community events such as breakfast with Santa, Blue Heron Days and the fun run at Lino Lakes STEM School.

CERT members are offered training opportunities as they become available and most members have been trained to be severe storm spotters through Metro SKYWARN.

EXPLORERS - The Explorer Program is a program sponsored by local law enforcement agencies to provide career information to students between the ages of 14 and 20. It also provides the structure and resources needed for young adults to make ethical choices and to achieve their full potential as individuals. Students learn first-hand the duties and responsibilities of police officers, by bringing interested youth and police officers together on a weekly basis.

Each year the explorer program participates in the Annual Minnesota Law Enforcement Explorer Conference held in Rochester, MN. They also participate in a smaller Duluth conference at the Fond Du Lac Tribal and Community College that helps them to prepare for the state competition.

These conferences provide the Explorers with opportunities to meet other explorers who share their interests in law enforcement, be exposed to law enforcement agencies at the state and federal level, and the chance to receive college scholarship money through their participation in the mock scenarios. Unfortunately, due to COVID-19 restrictions, both conferences were cancelled in 2020.

At the conferences explorer teams compete against explorers from other law enforcement agencies from across the state. They compete in various events including pistol competitions, a bicycle obstacle course, a sample police exam and multiple law enforcement related scenarios such as handling traffic crash investigations, first aid, crime prevention, domestic crisis calls and bomb threat response.

Volunteering in the community is also an important aspect of the Explorer program. In 2020 the explorers assisted in the Guns N Hoses hockey game fundraiser. Again, due to restrictions, multiple volunteer events the Explorers help with annually, such as, the Ramsey and Anoka County Polar Plunge events, Blue Line Ball, Blue Heron Days Parade and the 3M Golf Championship, had been cancelled.

TRAIL WATCH – Trail Watch is a group of 26 volunteers that report incidents observed in our city parks and on our trails to members of the Lino Lakes Public Safety Department. Volunteers share information about current issues that need monitoring, and keep an eye on the areas of the city that they frequently visit. Trail Watch volunteers report suspicious activity, ordinance violations, and potential safety hazards.

During 2020, the trail watch team completed 505 hours of patrol. During their patrols, observations were made that resulted in 5 safety/maintenance requests, 4 reports pertaining to animal issues, 4 reports of theft from motor vehicle incidents, 3 littering complaints, 2 reports of after-hours activity in parks, and a snowmobile use violation. The Trail Watch volunteers provide a great service to our city by assisting our staff in making sure all the parks and trails are safe for our community to use.

Personnel Changes

New Staff

Zachary Beddow, Community Service Officer
Mike Monson Police Officer
Quillan Oak, Police Officer
Georgia Carlson, Police Officer
Nick Clausen, POC Firefighter
Brandon Byrne, POC Firefighter

Resignations

Tou Vang, Police Officer
Jackie McIntosh, Police Officer
Terina Hagen, Police Officer
Steve Wagner, Police Officer
Mike Monson, Police Officer

Leave of Absence

Mark Hokkanen
